THE JUNCTION CLIENT FACE TO FACE RISK ASSESMENT						
What are the hazards?	Who might be harmed and how?	What are you already doing to control the risks?	What further action do you need to take to control the risks?	Who needs to carry out the action?	When by? (Date)	Date complete
Clients at increased risk of spreading or contracting the virus.	Clients and staff due to client lack of understanding or following of service procedures and or boundaries.	Before coming to site, staff will assess clients over the phone and talk though the measures in place to protect and reduce risk of spread of virus. Staff will make clients aware that a temperature check will be done on entry to the site and clients will be asked to go home with a recommendation to self-isolate if their temperature check is above the Government guidance of 37.8 degrees Celsius. Clients will be made aware of distancing and expected to follow this. Clients	Ensure regular guidance is checked with staff team. Ensure VIEWS system is updated for each client on measures taken. Ensure follow up call is made to client after service use to assess if there is any increased risk after initial face to face work.	Service delivery team, Line managers	From 9 th of July or when face to face work commences.	

will be usede assess
will be made aware
that staff will be
wearing PPE that
includes a clear full-
face visor to avoid
